SUBJECT INDEX

Acoustic emission
characterization of particle impact by quantitative acoustic emission, 63
Adhesion
investigation of adhesion wear of filled polytetrafluoroethylene by ESCA, AES and XRD, 25
AES
investigation of adhesion wear of filled polytetrafluoroethylene by ESCA, AES and XRD, 25
Alloys
cavitation erosion of heat-treated low alloy cast irons, 143
improvement of ground surface roughness in Al–Si alloys, 199
Aluminium
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
improvement of ground surface roughness in Al–Si alloys, 199
wear mechanisms of SIALON and metal in dry sliding, 175

Boriding
mechanical explanation for the influence of residual stress on the wear resistance of borided steel, 151
Boundary lubrication
sliding metallic friction with boundary lubrication: an investigation of a simplified friction theory and of the nature of boundary lubrication, 161

Cavitation
cavitation erosion of heat-treated low alloy cast irons, 143
Ceramics
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
Contact area
real contact area measurements on magnetic rigid disks, 41
Contact zone
yielding in the contact zone of bodies interacting by dry friction, 129

Dry sliding
wear mechanisms of SIALON and metal in dry sliding, 175

Elastohydrodynamic lubrication
study of elastohydrodynamic lubrication in a three-lobe journal bearing, 1
Erosion
cavitation erosion of heat-treated low alloy cast irons, 143
model for bubble-induced erosion in fluidized-bed combustors and comparison with experiment, 107
ESCA
investigation of adhesion wear of filled polytetrafluoroethylene by ESCA, AES and XRD, 25

Failure
role of particulate contamination on scuffing failure, 51
Fluidized-bed combustors
model for bubble-induced erosion in fluidized-bed combustors and comparison with experiment, 107
Fourier spectrum sampling
optical classification of machined metal surfaces by Fourier spectrum sampling, 287
Friction
sliding metallic friction with boundary lubrication: an investigation of a simplified friction theory and of the nature of boundary lubrication, 161
yielding in the contact zone of bodies interacting by dry friction, 129

Grinding
improvement of ground surface roughness in Al–Si alloys, 199

Hydraulic actuators
theoretical analysis of tapered pistons in high speed hydraulic actuators, 299

Iron
cavitation erosion of heat-treated low alloy cast irons, 143
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91

Journal bearings
predicting wear in miniature steel–polymer journal bearings, 211
study of elastohydrodynamic lubrication in a three-lobe journal bearing, 1

Lubricants
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
Lubrication
sliding metallic friction with boundary lubrication: an investigation of a simplified friction theory and of the nature of boundary lubrication, 161
study of elastohydrodynamic lubrication in a three-lobe journal bearing, 1

Magnetic disks
real contact area measurements on magnetic rigid disks, 41
Mechanical behaviour
mechanical and tribological behavior of polyester reinforced with short glass fibers, 251

Nitrogen
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
wear mechanisms of SIALON and metal in dry sliding, 175

Oxygen
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
wear mechanisms of SIALON and metal in dry sliding, 175

Particle impact
characterization of particle impact by quantitative acoustic emission, 63
Particulate contamination
role of particulate contamination on scuffing failure, 51
Pistons
theoretical analysis of tapered pistons in high speed hydraulic actuators, 299
Polishing
polishing wear by soot, 15
Polyester
mechanical and tribological behavior of polyester reinforced with short glass fibers, 251
Polymers
predicting wear in miniature steel–polymer journal bearings, 211
PTFE
effect of tribochemical reaction of polytetrafluoroethylene transferred film with substrates on its wear behaviour, 267
investigation of adhesion wear of filled polytetrafluoroethylene by ESCA, AES and XRD, 25

Reinforcement
mechanical and tribological behavior of polyester reinforced with short glass fibers, 251
Roughness
improvement of ground surface roughness in Al–Si alloys, 199
modelling and simulation of a rough surface, 275

Scuffing
role of particulate contamination on scuffing failure, 51
Silicon
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
improvement of ground surface roughness in Al–Si alloys, 199
wear mechanisms of SIALON and metal in dry sliding, 175
Sliding
interdependence of wear events during slow sliding — a statistical viewpoint, 99
Sliding friction
sliding metallic friction with boundary lubrication: an investigation of a

simplified friction theory and of the nature of boundary lubrication, 161
Soot
polishing wear by soot, 15
Steel
mechanical explanation for the influence of residual stress on the wear resistance of borided steel, 151
predicting wear in miniature steel–polymer journal bearings, 211
Stress
mechanical explanation for the influence of residual stress on the wear resistance of borided steel, 151
Surfaces
improvement of ground surface roughness in Al–Si alloys, 199
modelling and simulation of a rough surface, 275
optical classification of machined metal surfaces by Fourier spectrum sampling, 287

Transferred films
effect of tribochemical reaction of polytetrafluoroethylene transferred film with substrates on its wear behaviour, 267
Tribochemical reactions
effect of tribochemical reaction of polytetrafluoroethylene transferred film with substrates on its wear behaviour, 267
Tribological behaviour
mechanical and tribological behavior of polyester reinforced with short glass fibers, 251

Ultrasonic machining
assessment of some dynamic parameters for the ultrasonic machining process, 187

Wear
effect of liquid lubricants on the wear of grey cast iron against Si–Al–O–N ceramic, 91
effect of tribochemical reaction of polytetrafluoroethylene transferred film with substrates on its wear behaviour, 267
investigation of adhesion wear of filled polytetrafluoroethylene by ESCA, AES and XRD, 25
interdependence of wear events during slow sliding — a statistical viewpoint, 99
mechanical explanation for the influence of residual stress on the wear resistance of borided steel, 151
polishing wear by soot, 15
predicting wear in miniature steel–polymer journal bearings, 211
wear mechanisms of SIALON and metal in dry sliding, 175
Wear resistance
mechanical explanation for the influence of residual stress on the wear resistance of borided steel, 151

XRD
investigation of adhesion wear of filled polytetrafluoroethylene by ESCA, AES and XRD, 25

Yielding
yielding in the contact zone of bodies interacting by dry friction, 129
